Analysis and Description of Activities Funded

Although no expenditures were made from Section 251 funds during the period covered by this report and no funds have yet been encumbered, the State Election Board anticipates making significant expenditures during the period covered by the next report. These expenditures will include purchases of hardware and software to upgrade the state's existing voter registration database. The State Election Board has also issued a request for proposals for a telecommunications-based voting system to comply with the disability requirements of the Help America Vote Act. We expect to complete a contract in the near future. This voting system will be used to supplement the state's existing statewide optical scan voting system.
